Projects

I have developed a tool to help Fantasy Premier League (FPL) managers; built using Python. Data from the official website and application of FPL are extracted via this tool to be later analyzed. This helps players of the game make informed decisions based on analytical data. The link to this tool is attached below: https://github.com/Ahsan-Inkiad/fpl-tool

Hobbies

I enjoy spending my free time watching football matches and analyzing the different playing styles of my icons. I also take pleasure in nature photography.
